

NoRoTech Conference

Technologies for the fabrication and characterization of 3D scaffolds for tissue engineering

8th –9th of June 2017 – University POLITEHNICA of Bucharest, Romania

Dear colleague,

It is our great pleasure to officially invite you to attend and participate at the **NoRoTech Conference** - Technologies for obtaining and characterization of 3D scaffolds for tissue engineering which will be held in Bucharest, Romania on the **8th and 9th of June 2017**.

The event is organized by the University Politehnica of Bucharest (Advanced Materials Group and Faculty of Medical Engineering) in collaboration with the University of Bergen, under the patronage of the Bilateral Relations Fund of the Programme RO14 "Research within Priority Sectors" funded through the European Economic Area Financial Mechanism 2009-2014.

The conference's **topics** include:

- Technologies for obtaining 3D scaffolds with potential applications in the biomedical field
- Performant techniques used for the investigation of the cellular behavior on 3D scaffolds
- (Bio) mechanical and morpho-structural characterization technologies for 3D scaffolds for tissue engineering.

Abstract submission is opened between 10-23 April and the notification of abstract acceptance will be given within 10 working days (deadline: 5th of May 2017).

Venue: The conference will be held at the Conference Center within the Central Library of the University Politehnica of Bucharest.

We look forward to seeing you in Bucharest.

Best regards,

Dr. Eng. Andrada Serafim

MINISTERUL EDUCAȚIEI ȘI
CERCETĂRII ȘTIINȚIFICE
